InpHiltrate

Ultra

Soil Wetting Agent

PRINCIPAL FUNCTIONING AGENTS:

Surfactants 40%
Constituents ineffective as a spray adjuvant 60%
TOTAL 100%

Read label before use.

Keep container tightly closed.

Keep only in original container.

Do not eat, drink or smoke when using this product.

Avoid breathing spray.

Wash hands thoroughly after handling.

Wear protective gloves, protective clothing, and eye protection.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

CAUTION: KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: 2.5 U.S. Gallons (9.46 L)

GENERAL INFORMATION

Increase the availability of water and nutrients in the root zone by improving the infiltration and penetration of irrigation or rainfall. Ideal for turf, athletic fields and other highly managed areas, **GS Ultra** is made with a high surfactant load that provides more of the necessary tools used to manage hydrophobic soils and the problems commonly associated with them.

DIRECTIONS FOR USE

For use on turfgrass such as on golf courses or other highly managed athletic fields. Schedule application before precipitation or a regular irrigation session to move **GS Ultra** into the soil faster. For best results, apply **GS Ultra** at the rates shown below on a periodic basis before signs of stress appear, such as a weekly program.

APPLICATION RATES

Irrigation system injection - Apply at a rate equivalent to 1.5 to 3 pints or 24 to 48 ounces per acre in pressurized irrigation systems.

Conventional spray system - Apply at a rate equivalent to 1.5 to 3 pints or 24 to 48 ounces per acre.

Coordinate application with precipitation or regular irrigation cycle.

Compatible with most turf chemicals when tank mixing. Before application always conduct a jar test to evaluate compatibility. Apply to a small area to determine the effect on turf quality.

Transplant Shock - Apply at 1.5 pints or 24 ounces per 1000 gallons of water to facilitate soil wetting while transplanting.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. For optimal storage, store between 40 and 90 F.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

WARRANTY: Seller warrants that this product consists of the ingredients specified and is reasonably made for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one other than Seller is authorized to make any warranty, guarantee or direction concerning this product. Because the time, place, rate of application and other conditions of use are beyond the Seller's control, Seller's liability from handling, storage and use of the product is limited to replacement of product or refund of purchase price.
